MANAGEMENT'S DISCUSSION AND ANALYSIS

The Management of the Alachua County District School Board has prepared the following discussion and analysis of financial activities for the fiscal year ended June 30, 2013. The intent of this discussion and analysis is to (a) assist the reader in focusing on significant financial issues, (b) provide an overview and analysis of the District's financial activities, (c) identify changes in the District's financial position, (d) identify material deviations from the approved budget, and (e) highlight significant issues in individual funds. Because the information contained in the Management's Discussion and Analysis (MD&A) is intended to highlight significant transactions, events, and conditions, it should be considered in conjunction with the District's financial statements and notes to financial statements.

FINANCIAL HIGHLIGHTS

Key financial highlights for the 2013 fiscal year are as follows:

- The District's total net assets decreased by \$10.9 million, or 13 percent.
- General revenues total \$232 million, or 93 percent of all revenues in the 2013 fiscal year, as compared to \$234 million, or 93 percent for the 2012 fiscal year. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions total \$17 million, or 7 percent as compared to \$17 million, or 7 percent in the prior year.
- The unassigned fund balance of the General Fund, representing the net current financial resources available for general appropriation by the Board, totals \$13.7 million at June 30, 2013, or 7 percent of General Fund expenditures as compared to \$21.3 million, or 11 percent at June 30, 2012.
- During the current year, General Fund expenditures exceeded revenues by \$10.7 million. This may be compared to last year's results in which General Fund revenues exceeded expenditures by \$13.8 million.

OVERVIEW OF THE FINANCIAL STATEMENTS

The basic financial statements consist of three components:

- Government-wide financial statements
- Fund financial statements
- Notes to financial statements

Government-Wide Financial Statements

The government-wide financial statements provide both short-term and long-term information about the District's overall financial condition in a manner similar to those of a private-sector business. The statements include a statement of net assets and a statement of activities that are designed to provide consolidated financial information about the governmental activities of the District presented on the accrual basis of accounting. The statement of net assets provides information about the government's financial position, its assets and liabilities, using an economic resources measurement focus. The difference between the assets and liabilities, the net assets, is a measure of the financial health of the District. The statement of activities presents information about the change in the District's net assets, the results of operations, during the fiscal year. An increase or decrease in net assets is an indication of whether the District's financial health is improving or deteriorating.

The government-wide statements present the District's activities in two categories:

- Governmental activities – This represents most of the District's services, including its educational programs: basic, vocational, adult, and exceptional education. Support functions such as transportation and administration are also included. Local property taxes and the state's education finance program provide most of the resources that support these activities.
- Component units – The District presents 16 separate legal entities as discretely presented component units, including 16 charter schools. Although legally separate organizations, the component units are included in this report because they meet the criteria for inclusion provided by generally accepted accounting principles. Financial information for these component units are reported separately from the financial information presented for the primary government.
- The Alachua County School Board Leasing Corporation, (Leasing Corporation), although also a legally separate entity, was formed to facilitate financing for the acquisition of facilities and equipment for the District. Due to the substantive economic relationship between the Board and the Leasing Corporation, the Leasing Corporation has been included as an integral part of the primary government.

Over a period of time, changes in the District's net assets are an indication of improving or deteriorating financial condition. This information should be evaluated in conjunction with other non-financial factors, such as changes in the District's property tax base, student enrollment, and the condition of the District's capital assets, including its school buildings and administrative facilities.

Fund Financial Statements

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management. Certain funds are established by law while others are created by legal agreements, such as bond covenants. Fund financial statements provide more detailed information about the District's financial activities, focusing on its most significant or "major" funds rather than fund types. This is in contrast to the entity-wide perspective contained in the government-wide statements. All of the District's funds may be classified within one of two broad categories discussed below.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, the governmental funds use a spendable financial resources measurement focus rather than the economic resources measurement focus found in the government-wide financial statements. This financial resources measurement focus allows the governmental fund statements to provide information on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year.

The governmental fund statements provide a detailed short-term view that may be used to evaluate the District's near-term financing requirements. This short-term view is useful when compared to the long-term view presented as governmental activities in the government-wide financial statements. To facilitate this comparison, both the governmental funds balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation of governmental funds to governmental activities.

The governmental funds balance sheet and statement of revenues, expenditures, and changes in fund balances provide detailed information about the District's most significant funds. The District's major funds are the General Fund, Special Revenue – Other Fund, Special Revenue – Federal Economic Stimulus Fund, Capital Projects – Local Capital Improvement Fund, and Capital Projects – Other Fund. Data from other governmental funds are combined into a single, aggregated presentation.

The district adopts an annual appropriated budget for its governmental funds. A budgetary comparison schedule has been provided for the General and major Special Revenue Funds to demonstrate compliance with the budget.

Fiduciary Funds. Fiduciary funds are used to report assets held in a trustee or fiduciary capacity for the benefit of external parties, such as student activity funds. Fiduciary funds are not reflected in the government-wide statements because the resources are not available to support the District's own programs. In its fiduciary capacity, the District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes. The District uses private-purpose trust funds to account for the District's early retirement program, the J. Dale Haynie Trust, and for a career service award program. The district uses agency funds to account for resources held for student activities and groups.

Notes to Financial Statements

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net assets may serve over time as a useful indicator of a government's financial position. The following is a summary of the District's net assets as of June 30, 2012, compared to net assets as of June 30, 2013:

Net Assets, End of Year

	Governmental Activities	
	6-30-13	6-30-12
Current and Other Assets	\$ 72,498,003	\$ 71,589,364
Capital Assets	117,490,505	133,561,922

Unrestricted (Deficit)	1,367,450	2,745,732
Total Net Assets	\$ 73,020,644	\$ 83,978,876

The largest portion of the District's net assets (53 percent) reflects its investment in capital assets (e.g., land, buildings, furniture and equipment), less any related debt still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending.

The restricted portion of the District's net assets (46 percent) represents resources that are subject to external restrictions on how they may be used. The unrestricted net assets may be used to meet the government's ongoing obligations to students, employees, and creditors.

The key elements of the changes in the District's net assets for the fiscal years ended June 30, 2013, and June 30, 2012, are as follows:

	Governmental Activities	
	6-30-13	6-30-12

Increase (Decrease) in Net Assets	\$ (10,958,233)	\$ (16,437,765)

State revenues increased by \$8.6 million or 9 percent, primarily due to an increase Florida Education Finance Program (FEFP). Local tax revenue decreased \$9.8 million or 9 percent, due to a decrease in our

required local effort tax levy for operating purposes. The largest revenue source is local tax revenue (40 percent).

Revenues from State sources for current operations are primarily received through the Florida Education Finance Program (FEFP) funding formula. The FEFP formula utilizes student enrollment data, and is designed to maintain equity in funding across all Florida school districts, taking into consideration the District's funding ability based on the local property tax base.

Instructional expenses represent 64 percent of total governmental expenses in the 2012-13 fiscal year. Instructional expenses increased by \$1 million, or .6 percent, from the previous year.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Major Governmental Funds

The General Fund is the chief operating fund of the District. At the end of the current fiscal year, unreserved fund balance is \$15.6 million, while the total fund balance is \$30.1 million. The unreserved fund balance decreased by 5.7 million, while the total fund balance decreased by \$4.2 million during the fiscal year. Key factors in this reduction are as follows:

- Total Revenue increased by \$5.7 million due mainly to increases in the FEFP funding
- Total Expenditures increased by \$2.6 million, due mainly to increase in classroom salary expense.
- Total Expenditures exceeded Revenue by \$10.7 million.

Special Revenue - Other Federal Programs – Other Federal Programs accounts for the financial resources of certain Federal grant programs.

Special Revenue - Federal Economic Stimulus Fund – to account for certain Federal grant program resources related to the American Recovery and Reinvestment Act of 2009 and the Race To the Top Grant.

The Capital Projects – Local Capital Improvement Fund has a total fund balance of \$8.8 million, all of which is restricted for the acquisition, construction, and maintenance of capital assets. The fund balance decreased in the current year due to the completion of renovations of various facilities and the purchases of buses.

The Capital Projects – Other Fund has a total fund balance of \$2.08 million, all of which is restricted for the acquisition, construction, and maintenance of capital assets. The fund balance decreased in the current year due to the completion of various facilities listed in our Certificate of Participation agreements.

GENERAL FUND BUDGETARY HIGHLIGHTS

Over the course of the year, the District revises its budget and brings amendments to the Board when needed. These amendments are needed to adjust to actual revenues received and direct resources where needed. The Board approves the final amendment to the budget after year-end.

OTHER MATTERS OF SIGNIFICANCE

The Alachua county voters approved an additional millage levy for operating purposes during the November 2008 election. The District budgeted \$11.8 million in local tax revenue from the additional millage for the 2012-13 fiscal year. The proceeds from the additional millage levy are to be used to restore and continue specific programs per the voter referendum.

The District will continue with current plans to reduce expenses and build reserves to offset future reductions.

CAPITAL ASSETS AND LONG-TERM DEBT

Capital Assets

The District's investment in capital assets for its governmental activities as of June 30, 2012, amounts to \$131 million (net of accumulated depreciation). This investment in capital assets includes land; improvements other than buildings; buildings and fixed equipment; furniture, fixtures, and equipment; motor vehicles; property under capital lease; construction in progress; and computer software.

Major capital asset events during the current fiscal year included the following:

- Construction in progress at June 30, 2013, includes various capitalized renovation and remodeling projects.

Additional information on the District's capital assets can be found in the Notes to Financial Statements section.

Long-Term Debt

At June 30, 2013, the District has total long-term debt outstanding of \$81.2 million. This amount is comprised of \$2.8 million of bonds payable and \$78.3 million of certificates of participations payable. The District issued \$20,285,000.00 in new Certificates of Participation to refund the Series 2004 Certificates of Participation.

Additional information on the District's long-term debt can be found in the Notes to the Financial Statements section.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Alachua County District School Board's finances. RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE GOVERNMENT-WIDE STATEMENT OF NET POSITION
For the Fiscal Year Ended June 30, 2013

Total Fund Balances - Governmental Funds \$ 52,719,825.89

Amounts reported for *governmental activities* in the statement of net position are different because:

Capital assets, net of accumulated depreciation, used in governmental activities are not financial resources and, therefore, are not reported as assets in the governmental funds.

Capital Assets	452,109,382.65
Accumulated Depreciation	(334,618,877.59)

Other long-term assets are not available to pay for current-period expenditures and therefore are deferred in the funds.

1,065,221.39

Internal service funds are used by management to charge the costs of certain activities, such as insurance, to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net assets.

7,351,043.54

Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds.

Bonds Payable	(2,885,000.00)
Certificates of Participation	(78,321,770.00)
Compensated Absences	(20,126,181.99)
Other Post Employment Benefits	(4,273,000.00)

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE
GOVERNMENT-WIDE STATEMENT OF ACTIVITIES
For the Fiscal Year Ended June 30, 2013

Net Change in Fund Balances - Governmental Funds \$ (6,663,160.69)

Amounts reported for *governmental activities* in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of depreciation expense in excess of capital outlays in the current period.

Capital Outlay Expense	6,068,810.10
Depreciation Expense	(22,140,226.95)

Internal Service Funds are used by management to charge the cost of certain activities such as insurance, to individual funds. The net revenue of internal service funds is reported with government activities.

7,351,043.54

Issuance costs and premiums and discounts on new debt issues are reported when issued as expenditures and other financing sources in the governmental funds, but are deferred and amortized as expenses over the life of the debt in the statement of activities.

1,065,221.39

Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. This is the long-term debt that was issued and refunded in the current period.

Certificates of Participation 2004	20,150,000.00
Certificates of Participation 2013 Refunding	(20,285,000.00)

Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount by which proceeds exceeded repayments in the current period.

Certificates of Participation	3,810,005.00
Bonds Payable	730,000.00

In the statement of activities, the cost of compensated absences is measured by the amounts earned during the year, while in the governmental funds, expenditures are recognized based on the amounts paid for compensated absences. This is the net amount of vacation and sick leave earned in excess of the amount used in the current period.

(260,925.33)

Other postemployment benefit costs are recorded in the statement of activities under the full accrual basis of accounting, but are not recorded in the governmental funds until paid. This is the net increase in the other postemployment benefit payable liability for the current fiscal year.

ALACHUA SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS
June 30, 2013

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

➤ **Reporting Entity**

The District School Board has direct responsibility for operation, control, and supervision of District schools and is considered a primary government for financial reporting. The Alachua County School District is considered part of the Florida system of public education. The governing body of the school district is the Alachua County District School Board which is composed of five elected members. The appointed Superintendent of Schools is the executive officer of the School Board. Geographic boundaries of the District correspond with those of Alachua County.

Criteria for determining if other entities are potential component units which should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standards Board's (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*, Sections 2100 and 2600. The application of these criteria provides for identification of any entities for which the District School Board is financially accountable and other organizations for which the nature and significance of their relationship with the School Board are such that exclusion would cause the District's basic financial statements to be misleading or incomplete. Based on these criteria, the following component units are included within the District School Board's reporting entity:

- **Blended Component Unit.** The Alachua County School Board Leasing Corporation was formed to facilitate financing for the acquisition of facilities and equipment as further discussed in Note 5. Due to the substantive economic relationship between the Alachua County District School Board and the Leasing Corporation, the financial activities of the Leasing Corporation are included in the accompanying basic financial statements. Separate financial statements for the Leasing Corporation are not published.
- **Discretely Presented Component Units.** The component unit columns in the basic financial statements, Exhibit B, include the financial data of 16 charter schools: Alachua Learning Elementary, Inc.; Alachua Learning Middle, Inc.; Caring and Sharing Learning School, Inc.; Einstein Montessori School, Inc.; Expressions Learning Arts Academy, Inc.; Florida School for Integrated Academics and Technology, Inc.; Genesis Preparatory School, Inc.; Healthy Learning Academy, Inc.; Hoggetowne Middle School, Inc.; Micanopy Area Charter Schools, Inc.; Micanopy Middle School, Inc.; Mycroschool Gainesville; One Room School House Elementary, Inc.; One Room Schoolhouse Middle, Inc.; Sweetwater Branch Academy, Inc., and Sweetwater Branch Elementary, Inc.

The charter schools are separate not-for-profit corporations organized pursuant to Chapter 617, Florida Statutes, the Florida Not for Profit Corporation Act, and Section 1002.33, Florida Statutes. The charter schools operate under charters approved by their sponsor, the Alachua County District School Board. The charter schools are considered to be component units of the District since they are fiscally dependent on the District to levy taxes for their support.

**ALACHUA COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS
June 30, 2013**

The financial data reported on the accompanying financial statements was derived from the Annual Financial Reports of the charter schools which are available at the District's administrative office for the fiscal year ended June 30, 2013.

➤ **Basis of Presentation**

Government-wide Financial Statements - Government-wide financial statements, including the statement of net assets and the statement of activities, present information about the School District as a whole. These statements include the non-fiduciary financial activity of the primary government and its component units.

Government-wide financial statements are prepared using the economic resources measurement focus. The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function. Depreciation expenses associated with the District's transportation department are allocated to the pupil transportation services function, while remaining depreciation expenses not readily associated with a particular function are reported as unallocated.

Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues, with certain exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function or business segment is self-financing or draws from the general revenues of the District.

The effects of interfund activity have been eliminated from the government-wide financial statements.

Fund Financial Statements - Fund financial statements report detailed information about the District in the governmental and fiduciary funds. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is reported in a separate column. Nonmajor funds are aggregated and reported in a single column. Because the focus of governmental fund financial statements differs from the focus of government-wide financial statements, a reconciliation is presented with each of the governmental fund financial statements.

The District reports the following major governmental funds:

- General Fund – to account for all financial resources not required to be accounted for in another fund, and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.
- Special Revenue – Other Federal Programs Fund – to account for certain Federal grant program resources.

**ALACHUA COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS
June 30, 2013**

- Special Revenue – Federal Economic Stimulus Fund – to account for certain Federal grant program resources related to the American Recovery and Reinvestment Act of 2009 and the Race To The Top Grant.
- Capital Projects – Local Capital Improvement Fund – to account for the financial resources generated by the local capital improvement tax levy to be used for educational capital outlay needs, including: construction, remodeling and addition projects; District-wide maintenance, renovation, and repair; motor vehicle purchases; new and replacement equipment purchases; payments for educational facilities and sites due under lease-purchase agreements (COPS); payments for renting and leasing education facilities and sites; payments of loans approved pursuant to Sections 1011.14 and 1011.15, Florida Statutes; and payment of the cost of leasing relocatable educational facilities.
- Capital Projects – Other Fund – to account for the financial resources primarily generated by the issuance of certificates of participation to be used for educational outlay needs, including new construction, renovation and remodeling projects and computer equipment.

Additionally, the District reports the following fiduciary fund types:

- Pension Trust Fund – to account resources used to finance the early retirement program.
- Private-Purpose Trust Fund – to account for resources of the J. Dale Haynie Trust Fund, the Diamond Sports Park and the career services award program.
- Agency Funds – to account for resources of the school internal funds which are used to administer moneys collected at the several schools in connection with school, student athletic, class, and club activities.

➤ **Basis of Accounting**

Basis of accounting refers to when revenues and expenditures, or expenses, are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide financial statements are prepared using the accrual basis of accounting, as are the fiduciary funds financial statements. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are prepared using the modified accrual basis of accounting. Revenues, except for certain grant revenues, are recognized when they become measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made. Under the modified accrual basis of accounting, expenditures are generally recognized when the related fund liability is incurred, except for

**ALACHUA COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS
June 30, 2013**

principal and interest on long-term debt, claims and judgments, and compensated absences, which are recognized when due. Allocations of cost, such as depreciation, are not recognized in governmental funds.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

The charter schools are accounted for as governmental organizations and follow the same accounting model as the District's governmental activities.

➤ **Deposits and Investments**

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term, highly liquid investments with original maturities of three months or less. Investments classified as cash equivalents include amounts placed with the State Board of Administration (SBA) in Florida PRIME.

Cash deposits are held by banks qualified as public depositories under Florida law. All deposits are insured by Federal depository insurance and collateralized with securities held in Florida's multiple financial institution collateral pool as required by Chapter 280, Florida Statutes.

Investments consist of amounts placed in the State Board of Administration Debt Service accounts for investment of debt service moneys, amounts placed with the State Board of Administration for participation in the Florida PRIME and the Fund B Surplus Funds Trust Fund (Fund B) investment pools created by Section 218.405 and 218.417, Florida Statutes, and those made locally. These investment pools operate under investment guidelines established by Section 215.47, Florida Statutes.

The District's investments in Florida PRIME, which the SBA indicates is a Securities and Exchange Commission Rule 2a7-like external investment pool, are similar to money market funds in which shares are owned in the fund rather than the underlying investments. These investments are reported at fair value, which is amortized cost.

The District's investments in Fund B are accounted for as a fluctuating net asset value pool, with a fair value factor of 111.8 at June 30, 2013. Fund B is not subject to participant withdrawal requests. Distributions from Fund B, as determined by the SBA, are effected by transferring eligible cash or securities to Florida PRIME, consistent with the pro rata allocation of pool shareholders of record at the creation date of Fund B. One hundred percent of such distributions from Fund B are available as liquid balance within Florida PRIME.

Investments made locally, including investments held for the pension fund, consist of money market funds, mutual funds, and United States Government Securities and are reported at fair value. Types and amounts of investments held at fiscal year-end are described in a subsequent note on investments.

➤ **Inventories**

Inventories consist of expendable supplies held for consumption in the course of District operations. The central stores, transportation, maintenance and the food service nonfood inventories are valued at cost on the moving-average basis. The purchased food inventories are

**ALACHUA COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS
June 30, 2013**

valued at final year-end contract price, which approximates cost on the first-in, first-out basis. United States Department of Agriculture surplus commodities are stated at their fair value as determined at the time of donation to the District's food service program by the Florida Department of Agriculture and Consumer Services, Bureau of Food Distribution. The costs of inventories are recorded as expenditures when used rather than purchased.

➤ **Capital Assets**

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at cost in the government-wide statement of net assets but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more than \$1,000 with a useful life greater than one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at fair value at the date of donation.

Capital assets are depreciated using the composite method, except for assets under capital lease which are depreciated under the straight-line method over the shorter of the lease term or the asset's useful life.

<u>Description</u>	<u>Estimated Lives</u>
Improvements Other than Buildings	9 - 37 years
Buildings and Fixed Equipment	10 - 50 years
Furniture, Fixtures, and Equipment	3 - 12 years
Assets Under Capital Lease	10 years
Motor Vehicles	5 - 10 years
Audio Visual Materials and Computer Software	4 - 5 years

Current-year information relative to changes in capital assets is described in a subsequent note.

➤ **Long-Term Liabilities**

Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net assets.

In the governmental fund financial statements, bonds and other long-term obligations are not recognized as liabilities until due. Governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued and premiums are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

In the government-wide financial statements, compensated absences (i.e., paid absences for employee vacation leave and sick leave) are accrued as liabilities to the extent that it is probable

**ALACHUA COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS
June 30, 2013**

that the benefits will result in termination payments. A liability is reported in the governmental fund financial statements only for the current portion of compensated absences expected to be paid using expendable available resources.

Changes in long-term liabilities for the current year are reported in a subsequent note.

➤ **State Revenue Sources**

Revenues from State sources for current operations are primarily from the Florida Education Finance Program administered by the Florida Department of Education (Department) under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the Department. The Department performs certain edit checks on the reported number of FTE and related data, and calculates the allocation of funds to the District. The District is permitted to amend its original reporting for a period of five months following the date of the original reporting. Such amendments may impact funding allocations for subsequent years. The Department may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the year when the adjustments are made.

The State provides financial assistance to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for certain programs be expended only for the program for which the money is provided, and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical educational programs. The Department generally requires that categorical educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is reserved in the governmental fund financial statements for the unencumbered balance of categorical educational program resources.

A schedule of revenue from State sources for the current year is presented in a subsequent note.

➤ **District Property Taxes**

The School Board is authorized by State law to levy property taxes for district school operations, capital improvements, and debt service.

Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Alachua County Property Appraiser, and property taxes are collected by the Alachua County Tax Collector.

The School Board adopted the 2012 tax levy on September 04, 2012. Tax bills are mailed in October and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to 4 percent for early payment.

Taxes become a lien on the property on January 1, and are delinquent on April 1, of the year following the year of assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes, and for enforcement of collection of real property taxes by the sale of interest-bearing tax certificates to satisfy unpaid taxes. The

**ALACHUA COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS
June 30, 2013**

procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the Board adopts the tax levy. Property tax revenues are recognized in the governmental fund financial statements when taxes are received by the District, except that revenue is accrued for taxes collected by the Alachua County Tax Collector at fiscal year-end but not yet remitted to the District. Because any delinquent taxes collected after June 30 would not be material, delinquent taxes receivable are not accrued and no delinquent tax revenue deferral is recorded.

Millages and taxes levied for the current year are presented in a subsequent note.

➤ **Federal Revenue Sources**

The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For Federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

2. BUDGETARY COMPLIANCE AND ACCOUNTABILITY

The Board follows procedures established by State statutes and State Board of Education rules in establishing budget balances for governmental funds, as described below:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and State Board of Education rules.
- Appropriations are controlled at the object level (e.g., salaries, purchased services, and capital outlay) within each activity (e.g., instruction, pupil personnel services, and school administration) and may be amended by resolution at any School Board meeting prior to the due date for the annual financial report.
- Budgets are prepared using the same modified accrual basis as is used to account for governmental funds.
- Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at fiscal year-end and encumbrances outstanding are honored from the subsequent year's appropriations.

Interest Rate Risk

- Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Section 218.415(17), Florida Statutes, limits investment maturities to provide sufficient liquidity to pay obligations as they come due. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses from increasing interest rates.
- Florida PRIME had a weighted average days to maturity (WAM) of 42.8 days at June 30, 2013. A portfolio's WAM reflects the average maturity in days based on final maturity or reset date, in the case of floating rate instruments. WAM measures the sensitivity of the portfolio to interest rate changes. Due to the nature of the securities in Fund B, the interest rate risk information required by GASB Statement No. 40 (i.e., specific identification, duration, weighted average maturity, segmented time distribution, or simulation model) is not available. An estimate of the weighted average life (WAL) is available. In the calculation of the WAL, the time at which an expected principal amount is to be received, measured in years, is weighted by the principal amount received at that time divided by the sum of all expected principal payments. The principal amounts used in the WAL calculation are not discounted to present value as they would be in a weighted average duration calculation. At June 30, 2013, based on expected future cash flows, the WAL of Fund B is estimated at 3.98 years. However, because Fund B consists of restructured or defaulted securities there is considerable uncertainty regarding the WAL. Participation in Fund B is involuntary.

Credit Risk

- Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Section 218.415(17), Florida Statutes, limits investments to the SBA's Florida PRIME, or any other intergovernmental pool authorized pursuant to the Florida Interlocal Cooperation Act as provided in Section 163.01, Florida Statutes; Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency; interest-bearing time deposits to qualified public depositories, as defined in Section 280.02, Florida Statutes; and direct obligations of the United States Treasury. The District does not have a formal investment policy that limits its investment choices.
- The District's investments in the SBA debt service accounts are to provide for debt service payments on bond debt issued by the State Board of Education for the benefit of the District. The District relies on policies developed by the SBA for managing interest rate risk and credit risk for this account.
- As of June 30, 2013, the District's investment in Florida PRIME Pool A is AAAM rated.
- As of June 30, 2013, the District's investment in the Local Government Surplus Funds Investment Pool B is not rated by any nationally recognized statistical rating agency.

Custodial Credit Risk

- Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the District will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. Section 218.415(18), Florida Statutes, requires the District to earmark all investments and 1) if registered with the issuer or its agents, the investment must be immediately placed for safekeeping in a location that protects the governing body's interest in the security; 2) if in book entry form, the investment must be held for the credit of the governing body by a depository chartered by the Federal Government, the State, or any other state or territory of the United States which has a branch or principal place of business in this State, or by a national association organized and existing under the laws of the United States which is authorized to accept and execute trusts and which is doing business in this State, and must be kept by the depository in an account separate and apart from the assets of the financial institution; or 3) if physically issued to the holder but not registered with the issuer or its agents, must be immediately placed for safekeeping in a secured vault. The District does not have a formal investment policy that addresses custodial credit risk.
- In conjunction with the issuance of its \$5,147,000 Taxable Certificates of Participation, Series 2001-QZAB, U.S. Bank, as successor Trustee, entered into a Master Repurchase Agreement with Bank of America, N.A. The monies are invested at a rate of 5% and will accrue to a total value of \$5,147,000 on October 25, 2015, the repurchase date of the agreement. Under the terms of the agreement, Bank of America must post collateral in an amount equal to 103% of the investment value. Eligible collateral is limited to direct obligations of the United States Treasury of the United States Government and certain obligations of Federal agencies which represent the full faith and credit of the United States of America. All collateral must be marked to market at least monthly.
- In conjunction with the issuance of its \$1,794,000 Taxable Certificates of Participation, Series 2005-QZAB, The School Board of Alachua County, U.S. Bank, as successor Trustee, and Wells Fargo Bank, National Association formerly known as Wachovia Bank, N.A. as provider, entered into a Security Delivery Agreement dated December 22, 2005. The deposits total \$1,176,198.25 and will accrue to a total value of \$1,794,000 on December 22, 2020 at the guaranteed rate of 3.57%. At the time of each deposit by the Board, the Trustee purchases and holds on behalf of the Board eligible securities from the provider. Eligible securities include direct obligations of the United States Treasury of the United States Government and certain obligations of Federal agencies, which represent the full faith and credit of the United States of America, and other securities as outlined in the Security Delivery Agreement.

Concentration of Credit Risk

- Concentration of credit risk is the risk of loss attributed to the magnitude of the District's investment in a single issuer. Investments issued or explicitly guaranteed by the United States government and investments in mutual funds, external investment pools, and other pooled investments are excluded from this requirement. Section 218.415(8), Florida Statutes, requires the District to diversify investments to the extent practicable to control risk of loss resulting from over concentration of assets in a specific maturity, issuer, instrument, dealer, or bank through which financial instruments are bought and sold.
-
- The District does not have a formal investment policy that limits the amount the District may invest in any one issuer.
- See Note 13 for concentrations of investments in the District's early retirement program, reported in the Pension Trust Fund.

Foreign Currency Risk

- The District does not have a formal policy that limits its investment in foreign currency.

The District entered into financing arrangements, characterized as lease-purchase agreements, with the Alachua School Board Leasing Corporation whereby the District secured financing of various educational facilities and equipment. The financing was accomplished through the issuance of certificates of participation by the Corporation to third-party investors, to be repaid from the proceeds of rents paid by the District.

**ALACHUA COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS
June 30, 2013**

As a condition of the financing arrangements, the District has given ground leases on District property to the Alachua School Board Leasing Corporation, with rental fees of \$1 per year, except for the 2001-QZAB (Qualified Zone Academy Bonds) and the 2005-QZAB, which are secured by computer equipment. The initial terms of the leases end on the earlier of the maturity date, or the date on which the certificates are paid in full; however, if lease obligations remain outstanding, the ground leases may be renewed for additional terms of five years. The properties covered by the ground leases are, together with the improvements constructed thereon from the financing proceeds, leased back to the District. If the District fails to renew the leases and to provide for the rent payments through to term, the District may be required to surrender the properties included under the ground lease agreements for the benefit of the securers of the certificates as specified by the arrangements. The lease payments, which are used to make debt service payments on the certificates, are payable from funds appropriated annually by the District for such purpose from the local capital outlay tax levy or other funds legally available. The District properties included in the ground leases under these arrangements include land on which the projects have been constructed.

There is no interest cost for borrowing monies under this program. Mandatory lease payment account deposits of \$596,350 for five consecutive years beginning on October 25, 2002 were established. It is anticipated that these deposits, along with accrued interest, will be sufficient to redeem the Certificates at maturity. The Series 2005-QZAB Certificates of Participation were issued under a special program whereby the certificates, bearing an original issue date of December 22, 2005, will mature on December 22, 2020, for the original \$1,794,000 issue amount. There is no interest cost for borrowing monies under this program. Mandatory lease payment account deposits of \$235,240 for five consecutive years beginning on December 22, 2006, were established. It is anticipated that these deposits, along with accrued interest, will be sufficient to redeem the Certificates at maturity.

8. FUND BALANCE REPORTING

The District implemented Governmental Accounting Standards Board Statement No. 54, Fund Balance Reporting and Governmental Fund Types Definitions, for the fiscal year ending June 30, 2012. The objective of the statement is to improve the usefulness and understanding of fund balance information for users of the financial statements. The reporting standard establishes a hierarchy for fund balance classifications and the constraints imposed on the uses of those resources. The District reports its governmental fund balances in the following categories:

Non-spendable - The net current financial resources that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. Generally, not in spendable form means that an item is not expected to be converted to cash. Examples of items that are not in spendable form include inventory, prepaid amounts, long-term amounts of loans and notes receivable, and property acquired for resale. The District classifies its amounts reported as inventories as non-spendable.

Restricted - The portion of fund balance on which constraints have been placed by creditors, grantors, contributors, laws or regulations of other governments, constitutional provisions, or enabling legislation. Restricted fund balance places the most binding level of constraint on the use of fund balance. The District classifies most of its fund balances other than General Fund as restricted, as well as unspent State categorical and earmarked educational funding reported in the General Fund, that are legally or otherwise restricted.

Committed - The portion of fund balance that can only be used for specific purposes pursuant to constraints imposed by formal action of the highest level of decision-making authority (i.e., the district school board). These amounts cannot be used for any other purpose unless the district school board removes or changes the specified use by taking the same action it employed to previously commit the amounts. The District did not have any committed fund balances at June 30, 2013.

Assigned - The portion of fund balance that is intended to be used for specific purposes, but is neither restricted nor committed. Assigned amounts include those that have been set aside for a specific purpose by an authorized government body or official, but the constraint imposed does not satisfy the criteria to be classified as restricted or committed. This category includes any remaining positive amounts, for

**ALACHUA COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS

governmental funds other than the General Fund, not classified as non-spendable, restricted, or committed. The District also classifies amounts as assigned that are constrained to be used for specific purposes based on actions of the Superintendent and Chief Financial Officer and not included in other categories.

Unassigned - The portion of fund balance that is the residual classification for the general fund. This balance represents amounts that have not been assigned to other funds and that have not been restricted, committed, or assigned for specific purposes.

12. FLORIDA RETIREMENT PROGRAM

Defined Benefit Plan. All regular employees of the District are covered by the Florida Retirement System. The Florida Retirement System (FRS) is a single retirement system administered by the Department of Management Services, Division of Retirement, and consists of two cost-sharing, multiple-employer retirement plans and other nonintegrated programs. These include a defined-benefit pension plan (Plan), a Deferred Retirement Option Program (DROP), and a defined-contribution plan, referred to as the FRS Investment Plan (Investment Plan). Plan provisions are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and Florida Retirement System Rules, Chapter 60S, Florida Administrative Code, wherein eligibility, contributions, and benefits are defined and described in detail. Essentially all regular employees of participating employers are eligible and must enroll as members of the FRS.

Employees enrolled in the Plan prior to July 1, 2011, vest at six years of credible service and employees enrolled in the Plan on or after July 1, 2011, vest at eight years of credible service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any other age after 30 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of credible service. Members of both Plans may include up to 4 years of credit for military service toward credible service. The Plan also includes an early retirement provision, but imposes a penalty for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, and death benefits and annual cost-of-living adjustments.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS employer. An employee may participate in the DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest.

Funding Policy. The contribution rates for members are established, and may be amended, by the State of Florida. During the 2012-13 fiscal year, contribution rates were as follows:

Class or Plan	Percent of Gross Salary	
	Employee	Employer (A)
Florida Retirement System, Regular	3.00	5.18
Florida Retirement System, Elected County Officers	3.00	10.23
Florida Retirement System, Senior Management Service	3.00	6.30
Deferred Retirement Option Program - Applicable to Members from All of the Above Classes or Plans	0.00	5.44
Florida Retirement System, Reemployed Retiree	(B)	(B)

Notes: (A) Employer rates include 1.11 percent for the post-employment health insurance supplement. Also, employer rates, other than for DROP participants, include 0.03 percent for administrative costs of the Public Employee Optional Retirement Program.

(B) Contribution rates are dependent upon the retirement class in which reemployed.

The District's liability for participation is limited to the payment of the required contribution at the rates and frequencies established by law on future payrolls of the District. The District's contributions for the fiscal years ending June 30, 2011, June 30, 2012, and June 30, 2013, totaled \$13,834,401.25, \$8,768,743.55, and \$9,322,553.57, respectively, which were equal to the required contributions for each fiscal year.

Defined Contribution Plan. Effective July 1, 2002, the Public Employee Optional Retirement Program (PEORP) was implemented as a defined contribution plan alternative available to all FRS members in lieu of the defined benefit plan. Employer contributions are defined by law, but the ultimate benefit depends in part on the performance of investment funds. The PEORP is funded by employer contributions that are based on salary and membership class (Regular Class, Special Risk Class, etc.). Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. The District's contributions, including employee contributions, to the Investment Plan for the fiscal year ending June 30, 2013, totaled \$1,338,110.16.

Pension Reporting. The financial statements and other supplemental information of the FRS are included in the comprehensive annual financial report of the State of Florida which may be obtained

from the Florida Department of Financial Services. Also, an annual report on the FRS, which includes its financial statements, required supplemental information, actuarial report, and other relevant information, may be obtained from the Florida Department of Management Services, Division of Retirement.

13. EARLY RETIREMENT PROGRAM

Plan Description. As authorized by Section 1012.685, Florida Statutes, the Board implemented an Early Retirement Plan (Plan) effective January 1, 1984. The Plan is a single-employer defined benefit pension plan. The purpose of the Plan is to provide District employees, who elect to retire under the early retirement provisions of the Florida Retirement System, described in Note 12, with a monthly benefit equal to the statutory reduction of the normal retirement benefits when early retirement precedes the normal retirement age. The Board administers Plan assets in a Pension Trust Fund and is responsible for their investment. The Board acts as the administrative agent for the Plan.

As of June 30, 2013, employee membership data related to the Plan were as follows:

Retirees and Beneficiaries Currently Receiving Benefits	171
Active Plan Participants:	
Vested	551
Nonvested	3,361
Total Active Plan Participants	3,912
Total	4,083

A summary of eligibility and benefits follows:

- **Eligibility** - A member of the Plan is eligible upon attainment of age 55 to 61, completion of 25 or more years of creditable service, and having applied for retirement under the Florida Retirement System.

Provided, however, for those retiring during the period from July 1, 2008 (August 1, 2008 for Teachers), through June 30, 2009, at least 20 years of creditable service must represent employment by the School Board of Alachua County and the employee must have at least 20 years experience in the Florida Retirement System.

For those retiring during the period from July 1, 2009, through June 30, 2013, the 15 years immediately preceding retirement must be as an employee of the School Board of Alachua County.

The Early Retirement Plan will be closed to new enrollees on or after July 1, 2013.

- Benefits- Amount of the reduction in monthly benefits from the Florida Retirement System as a consequence of early retirement.

Summary of Significant Accounting Policies. Significant accounting policies related to basis of accounting and the method of asset valuation are disclosed in Note 1. Investment disclosures related to the pension trust fund are in note 3. There are no interfund loans outstanding between the Pension Trust Fund and other funds.

Contributions and Reserves. The District's Early Retirement program was established by the Board and became effective on January 1, 1984 and may be subsequently amended by the Board. Pursuant to the Plan agreement, no contribution shall be required or permitted from any member. Board contributions shall be sufficient to meet the annual pension cost of the Plan.

Periodic employer contributions to the Plan are determined on an actuarial basis using the "Aggregate Actuarial Cost Method." Annual pension cost is funded on a current basis. Significant actuarial assumptions used to compute annual required contributions are the same as those used to determine the actuarial accrued liability.

Contributions to the Plan in 2013 totaled to \$562,616.88 all of which was paid by the Board, and were made in accordance with actuarially determined contribution requirements determined through an actuarial update performed at July 1, 2011. However, a revised interpretation of amendments to collective bargaining agreements had the effect of lowering the funding requirements for the plan year ended June 30, 2012, from \$806,287 to \$495,614; consequently, there existed a prepaid contribution of \$310,673 at June 30, 2012.

The computation of the annual required contributions for 2012 was based on the same (a) actuarial assumptions, (b) benefit provisions, (c) actuarial funding method, and (d) other significant factors as used to determine annual required contributions in the previous year; however, a subsequent interpretation of amendments to the collective bargaining agreements by the actuary resulted in lowering the annual required contribution for fiscal year 2011-12, as noted above.

All of the assets in the District's Pension Trust Fund are legally required reserves. None of the assets have been designated by the Board for any other specific purpose.

Costs of administering the plan are financed through the Plan's resources (employer contributions and investment earnings).

Funded Status and Funding Progress

The required schedule of funding progress, immediately following the notes to the financial statements, presents multiyear trend information about whether the actual value of the Plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. Information about the funding status of the Plan as of the most recent actuarial valuation date is as follows:

(1) Valuation Date	(2) Actuarial Value of Assets (AVA)	(3) Entry Age Normal Actuarial Accrued Liability (AAL)	(4) Unfunded Actuarial Accrued Liability (UAAL) (3)-(2)	(5) Funded Ratio (2)/(3)	(6) Annual Covered Payroll	(7) UAAL as Percentage of Payroll (4)/(6)
7/1/12	\$ 3,230,195	\$5,967,283	\$2,737,088	54.137%	\$123,016,217	2.22%

Isolated analysis of the dollar amounts of the actuarial value of assets, actuarial accrued liability, and unfunded actuarial liability can be misleading. Expressing the actuarial value of assets as a percentage of the actuarial accrued liability provides one indication of the funding on a going-concern basis. Analysis of this percentage over time indicates whether the Plan is becoming financially stronger or weaker; generally, the greater this percentage, the stronger the Plan.

**ALACHUA COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS
June 30, 2013**

Trends in the unfunded actuarial accrued liability and covered payroll are both affected by inflation. Expressing the unfunded actuarial accrued liability as a percentage of covered payroll approximately adjusts for the effects of inflation, and aids analysis of the progress made in accumulating assets to pay benefits when due; generally, the smaller this percentage, the stronger the Plan.

The District uses the aggregate actuarial cost method, and therefore, the information on the funded status and the funding progress of the plan have been prepared using the entry age normal cost method and is intended to serve as a surrogate for the funded status and the funding progress of the plan.

14. POSTEMPLOYMENT HEALTH CARE BENEFITS

Plan Description. The Postemployment Health Care Benefits Plan is a single-employer defined benefit plan administered by the District. Pursuant to the provisions of Section 112.0801, Florida Statutes, former employees who retire from the District are eligible to participate in the District's self-insured health and hospitalization plan for medical and prescription drug coverages. The District subsidizes the premium rates paid by retirees by allowing them to participate in the OPEB Plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the OPEB Plan on average than those of active employees. Retirees are required to enroll in the Federal Medicare program for their primary coverage as soon as they are eligible.

Funding Policy. For the Postemployment Health Care Benefits Plan, contribution requirements of the District are established and may be amended by action from the Board. The District has not advance-funded or established a funding methodology for the annual Other Post Employment Benefit (OPEB) costs or the net OPEB obligation. For the 2012-13 fiscal year, 650 retirees received postemployment health care benefits. The District provided required contributions of \$1,372,000 toward the annual OPEB cost, comprised of benefit payments made on behalf of retirees for claims expenses (net of reinsurance), administrative expenses, and reinsurance premiums, and net of retiree contributions totaling \$3,862,000.

Annual OPEB Cost and Net OPEB Obligation. The District's annual OPEB cost (expense) is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with parameters of Governmental Accounting Standards Board Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. The ARC represents a level of funding that if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years. The following table shows the District's annual OPEB cost for the year, the amount actually contributed to the OPEB Plan, and changes in the District's net OPEB obligation for Postemployment Health Care Benefits:

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation as of June 30, 2013, was as follows:

Fiscal Year	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
2010-11	1,653,000	68.8%	2,654,000
2011-12	2,079,000	59.8%	3,489,000
2012-13	2,156,000	63.6%	4,273,000

Funded Status and Funding Progress. As of March 1, 2012, the actuarial accrued liability for benefits was \$23,989,000 and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability of \$23,989,000 and a funded ratio of 0 percent. The covered payroll (annual payroll of active participating employees) was \$111,591,000, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 21.5 percent.

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, present multi-year trend information about whether the actuarial value of OPEB Plan assets is increasing or decreasing over time relative to the actuarial accrued liability.

**ALACHUA COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS
June 30, 2013**

Actuarial Methods and Assumptions. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment and termination, mortality, and the healthcare cost trends. Amounts determined regarding the funded status of the OPEB Plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. Projections of benefits for financial reporting purposes are based on the substantive OPEB Plan provisions, as understood by the employer and participating members, and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and participating members. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The District's OPEB actuarial valuation as of March 1, 2012, used the entry age normal cost actuarial method to estimate the unfunded actuarial liability as of June 30, 2012, and the frozen entry age normal cost actuarial method to estimate the District's 2011-12 fiscal year annual required contribution. Because the OPEB liability is currently unfunded, the actuarial assumptions included a 4 percent rate of return on invested assets, which is the District's long-term expectation of investment returns under its investment policy. The actuarial assumptions also included a payroll growth rate of 4 percent per year, general inflation rate of 2.5 percent, and an annual healthcare cost trend rate of 10 percent initially beginning for the 2011-12 fiscal year, reduced by 0.5 percent per year, to an ultimate rate of 5 percent after ten years.. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis.

<u>Project</u>	<u>Contract Amount</u>	<u>Completed to Date</u>	<u>Balance Committed</u>
Various Projects	\$540,646.82	\$420,563.19	\$120,083.63

16. RISK MANAGEMENT PROGRAMS

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Alachua County District School Board is a member of the Florida School Board Insurance Trust (FSBIT), a protected self-insurance fund for Florida school boards. FSBIT was established under the authority of Section 624.4622, Florida Statutes, for the purpose of pooling property, casualty, and workers' compensation exposure; purchasing and procuring insurance coverage of various types or providing self-insurance; and providing risk management services for the Florida school boards.

Health and hospitalization insurance coverage is provided to District employees through purchased commercial insurance.

Insurance coverage for fiduciary, petroleum tanks, student accident, student nurse malpractice, and sports injury are provided by commercial insurance.

Settled claims resulting from these risks have not exceeded purchased insurance coverage in any of the past three fiscal years.

17. LITIGATION

The District is involved in several pending and threatened legal actions. In the opinion of District management, the range of potential loss from all such claims and actions should not materially affect the financial condition of the District.

Contributions and Reserves The District's Plan was established by the Board and became effective on January 1, 1984. Pursuant to the Plan agreement, no contribution shall be required or permitted from any member. Board contributions shall be sufficient to meet the annual pension cost of the Plan.

Periodic employer contributions to the Plan are determined on an actuarial basis using the aggregate actuarial cost method. Annual pension cost is funded on a current basis. Significant actuarial assumptions used to compute annual required contributions are the same as those used to determine the actuarial accrued liability.

Contributions to the Plan in the fiscal year 2011-12 totaled \$806,287, all of which were paid by the Board in accordance with actuarially determined contribution requirements determined through an actuarial valuation update performed at July 1, 2011. However, a revised interpretation of amendments to collective bargaining agreements lowered funding requirements for the plan year ended June 30, 2012, from \$806,287 to \$495,614; consequently, a prepaid contribution of \$310,673 exists at June 30, 2012.

The computation of the annual required contribution determined through the actuarial valuation update performed July 1, 2011 for the 2011-12 fiscal year, was based on the same (a) actuarial assumptions, (b) benefit provisions, (c) actuarial funding method, and (d) other significant factors as used to determine annual required contributions in the previous year, however, a subsequent interpretation of amendments to the collective bargaining agreements by the actuary resulted in lowering the annual required contribution for the 2011-12 fiscal year, as noted above.

All assets in the District's pension trust fund are legally required reserves. None of the assets have been designated by the Board for any other specific purpose. Costs of administering the Plan are financed through the Plan's resources (employer contributions and investment earnings).

3. SCHEDULE OF FUNDING PROGRESS-OTHER POSTEMPLOYMENT BENEFITS

The March 1, 2012, unfunded actuarial liability of \$23,989,000 was significantly higher than the March 1, 2010, liability of \$19,138,000 as a result of the following:

Actual changes in premium rates were lower than expected premium increases.

The medical trend assumption rate has been reset to 10 percent, graded down 0.5 percent per year until an ultimate rate of 5 percent is reached.

Retiree per capita claims costs were updated to consider actual claims experience for the prior two years as well as the current premium rates.

The mortality table has been updated to the IRS 2012 Static Mortality Table to reflect expected future increases in life expectancy. The previous valuation used the 2007 Current Liability Combined Mortality Table.
