

Fort Clarke Middle School

6th Grade Advanced Math

The advanced mathematics classes in sixth grade are intended to augment the typical understanding of mathematical topics by providing more depth and challenges for the students that have a strong grasp of the basics of elementary mathematics. The curriculum includes, but is not limited to, that prescribed by the Florida Standards for Mathematics. Students are challenged to excel academically, and organizationally, in an effort to prepare them for AP, Honors, Cambridge, or IB mathematics classes at the high school level.

Track Grade	Course of Study Options			
	1	2	3	Other
6	Grade 6 Math	Grade 6 Advanced Math (based on FSA scores or math placement test)	Grade 7 Advanced Math (must pass district placement test)	Advanced Math at BHS (summer camp & test score required)
7	Grade 7 Math	Grade 7 Advanced Math	Algebra 1 Honors (HS credit)	Advanced Math & Advanced Science at BHS (test score required; HS credit)
8	Pre-Algebra	Algebra 1 (HS Credit) -or- Algebra 1 Honors (HS credit)	Geometry Honors (HS credit)	Advanced Math & Science at BHS (test score required; HS credit)

Seventh and Eighth grade placement is based on, but is not limited to the following:
 Grades in Sixth Grade Mathematics Course
 Teacher Recommendation
 Placement Test
 FSA/EOC Scores
